

Introducing TROPHY

Simon Noble
Cardiff University

Thrombosis Registry Of Palliative
and Hospice patients (TROPHY)

TROPHY

- Prospective collection of patients with advanced disease and VTE
- Anticoagulated patients (non VTE) who develop cancer
- Anticoagulated patients (non VTE) frailer / falls

TROPHY

- Behaviours of advanced cancer and VTE
 - Bleeding
 - Re-thrombosis
 - Quality of life
 - End of life care

TROPHY

- Guide practice
- Individualised care
- One size does not fit all

South East Wales Trials Unit

SEWTU database applications

ADMIN
SEWTU Office administration

HELP
Charting the progress of mother and baby

TROPHY
A study into clotting disorders in palliative care patients
Intervene (and what way) or hands off approach? That is the question. This study tracks disease course and patient response to anticoagulation and other interventions. Improved optimization of outcomes for thromboembolism sufferers will be achieved by this study.

PAAD
Occurrence and treatment of antibiotic associated diarrhoea (AAD) in care home environments

Building Blocks
Evaluating the Family Nurse Partnership in England: a randomised controlled trial (Query and reporting applications only)

WILMA
Maintaining weight loss. Analysis of the effectiveness of a 12-month, multi-component intervention

PAAS
Grass pollen allergy and asthma
Using entirely online data collection and unprocessed participant self

TROPHY Trials data storage and management application

(TEST site on server www.sewtudb-test.cf.ac.uk)

Main Menu

Guidelines to using the main menu

- Select a participant before beginning to use this form. The chosen participant signature then automatically follows you across the entire site
- To change a participant, make another selection using the SELECT PARTICIPANT button
- To create a new participant, select "new registrant" using the SELECT PARTICIPANT button and then fill out participant demographic details

Participant information

Input trials data

- [Patient Demographics](#)
- [Cancer details](#)
- [Thromboembolism details](#)
- [Anticoagulant details](#)
- [Physiology and biochemistry](#)
- [Co-morbidity details](#)
- [Death notification](#)

Queries and reports

- [Review most recent data entered](#)
- [Data concurrency by participant](#)

Suggested titles for future development

- Baseline incomplete notifications
- Need to enter followup records
- Entries outstanding advisory
- Participant demographics exceptions

Application administration

- [Change my email address](#)

PHP Warning: sqlsrv_free_stmt() expects parameter 1 to be resource, null given in C:\inetpub\wwwroot\trophy\tpy_login_user.php on line 194 PHP Warning: sqlsrv_close() expects parameter 1 to be resource, null given in C:\inetpub\wwwroot\trophy\tpy_login_user.php on line 195

Done Internet

start <http://abbcwsb.cymr...> TROPHY Main Menu - ... Microsoft PowerPoint ... 15:23

Select participant

Order of selection data:-

partID::clincode::dob

0::New registrant:00/00/0000

Done

To change patient at any time, return to the main menu and make another selection

[Co-morbidity details](#)
